We provide cost effective and efficient services, tailored to individual needs for sustainable and effective management of our natural environment.

Flora & Vegetation Surveys

We undertake reconnaissance, detailed, and targeted flora surveys in accordance with regulatory standards.

- VEGETATION TYPE ASSESSMENTS
- VEGETATION CONDITION MAPPING
- ID OF PRIORITY & THREATENED FLORA
- THREATENED & PRIORITY ECOLOGICAL COMMUNITIES.
- WEED MAPPING

Fauna Surveys & Habitat Assessment

Our team brings extensive experience in undertaking fauna surveys across a variety of environments, offering basic, detailed, or targeted survey options.

- TRAPPING – LIVE CAPTURE & CAMERA TRAPS
- NOCTURNAL SURVEYS WITH THERMAL IMAGING CAPABILITIES
- ACOUSTIC SURVEYS
- BLACK COCKATOO HABITAT ASSESSMENTS

Fauna Relocation & Spotting

Licensed and experienced in fauna relocation during clearing, with authorisation to handle threatened species under the BC Act.

Environmental Management Plans

We develop, review and implement a comprehensive range of environmental management and offset plans, specialising in revegetation. Our expertise stems from years of hands-on experience working alongside clients, environmental agencies, and contractors.

- REVEGETATION & RESTORATION
- CONSTRUCTION & OPERATIONAL
- WETLAND & WATERWAY
- FLORA & FAUNA
- BUSHLAND & RESERVES
- BUSHFIRE RECOVERY
- WEED MANAGEMENT

Environmental Monitoring Services

We offer a wide range of environmental monitoring services. With extensive in-house field operations and feral animal control teams, we are able to take immediate management actions based on monitoring results.

- REVEGETATION MONITORING
- WEED MONITORING
- FAUNA MONITORING
- THREATENED SPECIES MONITORING
- ENVIRONMENTAL COMPLIANCE MONITORING

Environmental Impact Assessments (EIA)

We provide expert support for environmental approvals and impact assessments, including preparing regulatory documents, coordinating baseline studies, and liaising with state and federal regulators to ensure full compliance.

- ENVIRONMENTAL REGULATORY ADVICE
- APPROVAL STRATEGIES
- PREPARING REGULATORY DOCUMENTS
- EIA DOCUMENT PREPARATION
- LIAISON WITH STATE & FEDERAL REGULATORS
- ON-GROUND BASELINE SURVEYS

Clearing Permits & Approvals

Preparation and submission of Part IV, Part V, and Commonwealth clearing referrals.

INTEGRATED SOLUTIONS

At Natural Area we offer end-to-end services in land management and ecological restoration. Our specialised business units work seamlessly together to deliver efficient, tailored solutions. By combining expertise across disciplines, we ensure high-quality, sustainable outcomes through knowledge-sharing and a unified approach.
